# Transfer TT-StableCoin from ThunderCore Hub to other wallet

In order to give users a better experience of ThunderCore's ecosystem, when you use USDT/DAI to deposit into ThunderCore Hub, it will be automatically converted to TT-StableCoin. Please don't worry, **this process is reversible**, and when you use TT-StableCoin to withdraw to your other wallet, it will be converted back to USDT/DAI.
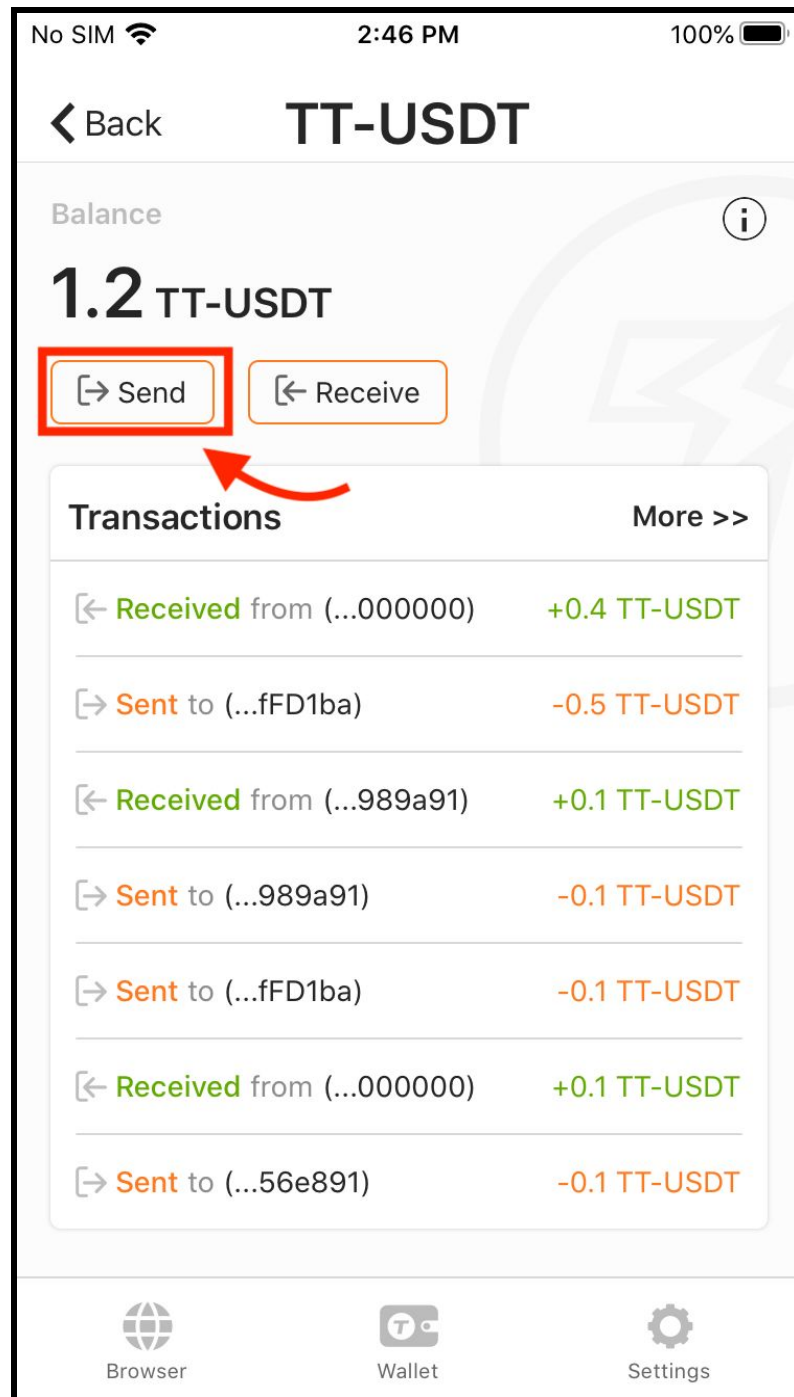

*TT-StableCoin: TT-USDT, TT-DAI

If you are a holder of TT-USDT

1. Go to **Wallet** then tap **TT-USDT**

2. Press **Send**

3. Enter the amount you want to send out and choose **USDT** as receiving token, then enter the Receiver's wallet address
